*“can pay
a guaranteed
monthly income
up to 40 years
to help your
client’s family
maintain
their standard
of living”*

Like most life insurance products, the product (Income Advantage Term™) within the Income Advantage Suite pays a lump sum at death which can be used to meet immediate family needs. In addition, it offers an optional rider (Select Income Rider¹) that will pay a guaranteed monthly income for up to 40 years to help your client's family maintain their standard of living. If the rider is selected, this benefit will be paid in addition to the lump sum benefit paid by the base policy. Furthermore, since the client's chances of living to retirement are high, the insurers of American General Life Companies also offer the opportunity to save money for the future in a tax-deferred index annuity (AG Global 8 Index®) for as little as \$300 a month. The Income Advantage Suite of products approach can provide families with cash accumulation for the future, plus lifestyle protection if the insured dies prematurely. Let's begin with highlights of the monthly income rider:

Select Income Rider

Policy Form Number:	(AGL) 08818, (USL) 08818N
Summary:	Upon the death of the base policy insured, this rider pays a monthly benefit to the beneficiary. The issue age for the rider is the same as the Income Advantage Term (base) policy to which it is attached. This rider can only be added at issue and may be dropped after issue.
Benefits:	This rider provides supplemental term insurance coverage on the life of the Insured. The terms and conditions of this supplemental term insurance coverage are the same as the terms and conditions of the policy to which this rider is attached except the death benefit payable under this rider will be paid as a monthly income benefit to the beneficiary. The settlement options described in the base policy are not available to the beneficiary. By electing this rider and paying the rider premium the owner has made an irrevocable election to have the rider death benefit paid as a monthly income benefit. (In other words, the beneficiary cannot convert the periodic benefit.)
Benefits Payable:	We will pay to the beneficiary the monthly benefit shown on the rider specifications page. The payment of benefits under this rider is irrevocable and separate from any other payment options available under the policy. The monthly benefit is fixed and payable until the end of the selected monthly benefit duration. The monthly benefit and monthly benefit duration for this rider are shown on the rider specifications. However, if upon the insured's death the payee is an estate, the proceeds will be paid in a lump sum that is equal to the conversion face amount shown on the rider specifications.
Benefits Payable For:	60, 120, 180, 240, 300, 360, 420 or 480 months
Issue Ages:	Same as the Income Advantage Term policy
Minimum Monthly Benefit:	\$500
Premiums:	Premiums are per \$1,000 of equivalent face, and vary by monthly income amount, monthly income duration, sex, term duration, issue age, and class. Annually Renewable Term (ART) rates also are available for this rider. There is no policy fee. The modal loadings and substandard rates on this rider are the same as the Income Advantage Term policy.
Conversion:	This option is available when the base policy is converted (Exchange Option) by written request if conversion occurs at any time during the period specified on the rider specifications. Upon conversion, the conversion face amount shown on the rider specifications will be added to the conversion face amount of the base policy. For purposes of the conversion option under the base policy, the face amount of the new policy may not exceed the conversion face amount of this rider plus the face amount of the base policy on the date of exchange. Any conversion limitations are the same as the base policy (see Exchange Option on page 3).
Beneficiary:	The beneficiary(ies) are as shown in the application unless later revised by the owner and recorded by the insurer. If any beneficiary dies before the rider insured, that beneficiary's interest will pass to any other beneficiaries according to their respective interests. If no beneficiary survives the rider insured, the estate of the owner will be the beneficiary. However, if a trust is the owner and no beneficiary survives the rider insured, the estate of the rider insured will be the beneficiary.
Base Policy:	The "base policy" is the Income Advantage Term policy to which this rider is attached.
Ownership:	The owner of the base policy is the owner of this rider.

AG Global 8 Index[®] Annuity

Contract Description:	Index, flexible-premium, deferred annuity
Issue Ages:	0 – 80 Owner and Annuitant, Non-Qualified (NQ) and Qualified (Q): such as Traditional or Roth IRA. Rollover IRA from 401 (k), etc.
Premium Minimum:	<ul style="list-style-type: none"> ▶ Scheduled Periodic Electronic Funds Transfer (EFT) through bank draft (NQ & Q): premium payment of \$300 monthly, \$900 quarterly, or \$1,800 semi-annual or \$3,600 annual ▶ \$5,000 initial premium (NQ) or (Q); \$2,000 post-issue. Scheduled EFTs may be \$100 monthly, \$300 quarterly, \$600 semi-annual, or \$1,200 annual.
Maximum:	<p>\$1 million without home office approval (age 75+, up to \$500,000)</p> <p>All post-issue premium will be placed in the Interim Account until the next contract anniversary. At that time, the Interim Account balance will be automatically transferred to the available Account Options based upon the percentages the client has specified for the new contract year. The crediting rate for the Interim Account will be declared when the contract is issued and then again on every anniversary. AGL - all declared rates are guaranteed to be at least two percent. USL - all declared rates are at least the Guaranteed Minimum Account Rate. Interest is credited to the Interim Account on a daily basis. Guarantees are subject to the claims-paying ability of the issuing company, AGL or USL.</p>
USL Guaranteed Minimum Account Rate: Definition	For USL contracts issued in 2009, it is 2 percent. Each year we will determine the Guaranteed Minimum Account Rate that will be in effect for all contracts issued during that calendar year. And, it is guaranteed to always be 1 percent or higher. Actual percentage will be stated on the Owner's Acknowledgement Form and in the contract. Once established at contract issue, it will remain the same for the life of the contract.
Account Options:	<p>A variety of interest-crediting methodologies bring flexibility, strength and diversity. See riders for full details. Guarantees are subject to the claims-paying ability of the issuing company. For the first three options listed below: Interest is credited annually on the contract anniversary and AGL's interest will never be less than zero percent, USL's interest will never be less than Guaranteed Minimum Account Rate.</p> <ul style="list-style-type: none"> ▶ Global Multiple Index Account[®] with Cap: Annual point-to-point methodology using changes in three global indices: S&P 500[®] Index², the Dow Jones EURO STOXX 50[®] Index (EURO STOXX)³ and the Nikkei 225SM Index⁴ (NikkeiSM) up to a Cap. The Cap will be declared when the contract is issued and then again on every anniversary. Annual credited interest is determined by adding the following three values⁵ together and then comparing the sum to the Cap: <ul style="list-style-type: none"> 50 percent of the calculated change in the index with the highest return during the year 30 percent of the calculated change in the index with the 2nd highest return during the year 20 percent of the calculated change in the index with the lowest return during the year ▶ Annual Point-to-Point Account with Participation Rate: Annual credited interest is based on the percentage calculated change in the S&P 500 Index over a contract year multiplied by a declared Participation Rate. Participation Rate is declared when the contract is issued and then again on every anniversary. While we have no intention of doing so, we reserve the right to add an index cap or spread if conditions warrant ▶ Monthly Additive Account with Cap: Annual credited interest will equal the sum of 12 monthly point-to-point S&P 500 Index value change percentages, with each month's positive percentage subject to the declared Cap. The Cap will be declared when the contract is issued and then again on every anniversary. ▶ Fixed Interest Account: AGL's crediting rate is declared when the contract is issued and then again on every anniversary. All declared rates are guaranteed to be at least two percent. USL's crediting rate is declared when the contract is issued and then again on every anniversary. All declared rates are guaranteed to be at least Guaranteed Minimum Account Rate. AGL and USL annual reallocations can be made into or out of the Fixed Interest Account. Fixed Interest is credited to the contract on a daily basis.

“Save money for THEIR retirement by saving money in a tax-deferred index annuity.”

<p>Guaranteed Minimum Withdrawal Benefit: (GMWB)</p>	<p>Through GMWB, clients maintain control of their account value, and can also have a guaranteed income stream.⁶ There is no up-front charge for this rider, and it is included in all contracts. GMWB payments are based upon attained age and annuity value, may begin after first contract year, age 55, account balance of \$50,000; GMWB payments are recalculated each year. And, even if the calculation results in a lower number due to a decrease in your annuity value, we guarantee that GMWB will never decrease from year to year as long as no excess withdrawals have been taken. Payments can increase each year due to attained age reaching a higher income percentage bracket⁷ as well as due to an increased annuity value.⁸ Keep in mind, like all withdrawals, GMWB payments decrease annuity values</p> <table border="1" data-bbox="381 598 1526 829"> <thead> <tr> <th colspan="8">Income Percentage Table</th> </tr> <tr> <th>Attained Age*</th> <th>55 – 59</th> <th>60 – 64</th> <th>65 – 69</th> <th>70 – 74</th> <th>75 – 79</th> <th>80 – 84</th> <th>85+</th> </tr> </thead> <tbody> <tr> <td>Single Owner Percent</td> <td>4.5%</td> <td>5.0%</td> <td>5.5%</td> <td>6.0%</td> <td>6.5%</td> <td>7.0%</td> <td>7.5%</td> </tr> <tr> <td>Joint Owner Percent</td> <td>3.5%</td> <td>4.0%</td> <td>4.5%</td> <td>5.0%</td> <td>5.5%</td> <td>6.0%</td> <td>6.5%</td> </tr> </tbody> </table> <p>*For Joint Owners, average the two ages</p> <p>When GMWB payments begin, the client’s Index Caps, Participation Rate, and Fixed Interest rate may each have a Rate Differential applied to it; Maximum Rate Differentials: 4 percent on Participation Rate, 0.4 percent on monthly additive Cap, 1 percent on Annual Cap, 0.4 percent on Fixed Interest Credited Rate. Once set, Rate Differentials will not change during the life of the contract. <p>Annual Statement:</p>	<p>Combination annual statements and reallocation notices are mailed following each contract anniversary and outline the relative distribution of the account value in all Account Options, including that year’s interest growth, as of the contract anniversary. It will also include information for the next contract year (the Caps and/or Participation Rate for the various Account Options as well as the interest-crediting rates for the Fixed Interest Account and the Interim Account) and available GMWB payment and Rate Differentials.</p>																																
<p>Annual Reallocation:</p>	<p>Account values can be reallocated as of each contract anniversary among all available Account Options. Withdrawal charges are not applied on reallocations. If your client would like to designate new allocation percentages for the available Account Options for the next contract year, they will need to complete and return the reallocation form (received with annual statement) to the home office within 45 days following the contract anniversary. If your client chooses to keep the same allocations, no response is required.</p>																																
<p>Death Benefit:</p>	<p>Upon the death of the owner (or first owner, if there are two owners), if the annuity value is greater than zero, the beneficiary will receive the annuity value (withdrawal charges are not applied at death). Beneficiary chooses to receive a single sum or an income plan. If the owner’s sole beneficiary is the spouse, the surviving spouse may continue the contract as long as the contract has not been annuitized.</p>																																
<p>Free Withdrawal Provision:</p>	<p>In all contract years, up to 10 percent of the annuity value, as of the previous contract anniversary (10 percent of the initial premium in the first contract year), may be withdrawn without a withdrawal charge.⁶ These free withdrawals may be taken out as a one-time withdrawal, as part of a series of systematic withdrawals, or a combination of the two. GMWB payments are considered partial withdrawals; however, they are not subject to withdrawal charges as long as no excess withdrawals are made in that year.</p>																																

AG Global 8 Index[®] Annuity continued

Minimum Withdrawals:	After a partial or systematic withdrawal, the minimum remaining annuity value must be no less than \$5,000. The minimum partial withdrawal is \$250 with no minimum remaining value requirement in each Account Option. Exception: Minimums do not apply when receiving GMWB payments. The minimum systematic withdrawal is \$50 and may come from any combination of Account Options. Interest only systematic withdrawals must be based on the value in the Fixed Interest Account. Systematic withdrawals may begin as soon as 30 days after the contract issue date; payments may be monthly, quarterly, semiannual or annual.																				
Required Minimum Distribution (RMD):	Pertains only to qualified (pre-tax) contracts ⁹ : No withdrawal charge on RMDs pertaining to this contract; however, the RMD payments will count against the Free Withdrawal Provision in a given year. ⁶
